## Seattle Public Utilities Water System Synopsis as of April 13, 2015

Precipitation was recorded in the Cedar and S.F. Tolt watersheds over the past week.

The combined reservoir storage of Chester Morse Lake, Masonry Pool, Lake Youngs and South Fork Tolt Reservoir is above the long term average for this time of the year.

The average snow accumulation across the sites that we monitor is estimated to be about 1.6 inches snow water equivalent which is below the long term average for this time of the year.

Water use over the past week averaged about 104 million gallons per day (mgd), which is less than the 116 mgd used during the same period over the years 1999-2008.

All data is provisional and subject to revision.
